Código dentro de la sección de Módulo1:

```
Sub ResaltarPalabras(ByVal celda As Range)
    If Not Application.CheckSpelling(word:=celda.Text, _
                                     IgnoreUppercase:=True) Then
        celda.Interior.Color = vbRed
        celda.Font.Color = vbWhite
        celda.Font.Bold = True
    Else
        celda.Interior.Color = xlNone
        celda.Font.Color = vbBlack
        celda.Font.Bold = False
    End If
End Sub
```

3.4.9.1 SOLUCIÓN

```
Sub OrdenarHojasPorNombreAsc()
    Dim total As Byte, i As Byte, j As Byte

    Application.ScreenUpdating = False

    total = Sheets.Count
    For i = 1 To total - 1
        For j = i + 1 To total
            If Sheets(j).Name < Sheets(i).Name Then
                Sheets(j).Move before:=Sheets(i)
```
