```
        If updated = False Then updated = True
    Next table

    ' Mostramos un cuadro de diálogo con el mensaje de actualización
    If updated Then
        MsgBox "¡Se han actualizado todas las tablas dinámicas!"
    End If
End Sub
```

5.4.5.1 SOLUCIÓN

```
Private Sub Worksheet_BeforeDelete()
    Dim Sheet2Delete As String

    Sheet2Delete = ThisWorkbook.ActiveSheet.Sheet2Delete
    ThisWorkbook.ActiveSheet.Name = VBA.Left(Sheet2Delete, 32) & "-Copia"

    ThisWorkbook.ActiveSheet.Copy _
        After:=Sheets(ThisWorkbook.ActiveSheet.Index)

    ThisWorkbook.ActiveSheet.Name = Sheet2Delete
End Sub
```
